

Waste Management Policy

January 2012

Parkway Construction (MK) Ltd acknowledges that their activities have an impact on the environment and will minimize any harmful effect by adopting a responsible attitude to these issues. Our aim is to comply and where practicable exceed all relevant legislation and regulations.

Parkway Construction (MK) Ltd are committed to the following:

- To continually improve our environmental performance.
- To prevent avoidable pollution.
- To reduce waste on all of our sites.
- To conserve energy and water.

We are committed to Reduce, Recycle and Minimize waste on all our sites.

To achieve this, our aim is to:

- Ensure our suppliers minimize packaging.
- Ensure our sub-contractors are aware of our policies and encourage them to monitor and improve their performance.
- Provide training and support to our employee's to enable them to perform their duties in accordance with our policy.
- Ensure that materials are resourced responsibly and efficiently.
- Only use accredited waste management companies, who will provide us with a full waste management audit for our sites.
- To review waste management in our internal project review meetings.
- To review waste management with our clients at the end of each contract.

It is our goal to lead the way in developing sustainable solutions for everyone we work for and everyone we work with.

This Company Waste Management Policy will be displayed prominently at each site and workplace
